BDC wire form department can produce a wide variety of wire formed products. Our modern CNC machines can manufacture wire forms from 2 mm to 12mm diameters, either 2 dimensional or 3 dimensional; with subsequent assembly utilising Mig, Tig, gas or resistance, spot welding and brazing techniques.

BDC manufacturer wire products which are used in the catering, medical, refrigeration, point-of-sales, heating and ventilation industries.

BDC manufacture shelves, oven rack, fan guards, wire forms, POS and POP display stands in mild or stainless steel. BDC offer full finishing facilities and can plastic or powder coat in all RAL colours.

- Plastic Coated
- Powder Coated
- Zinc Plated
- Electro Polishing
- Passivating
